## Exceptional. Affordable. Sustainable.

- Out of 60,000 pounds we receive weekly in used furniture, only 1,000 are sent to the land fill.
- More than 85% of the original Herman Miller parts are used.
- Many fabrics are made from recycled products such as plastic bottles.
- Powder coat process reclaims unused paint and emits fewer toxic VOCs.

85% of panels, connectors, and components are remanufactured from genuine first life Herman Miller product.
